GUNVAULT

GUN SAFES

GunVault

GunVault gun safes are truly premium products that set the standard for the rest of the industry. Our patented No-Eyes® Keypad and Bio pad provide lightning-quick access, even in the dark. Choose from the Nano, Micro, Mini, Multi and floor safe models when you need quick-access storage for your firearms or prized possessions. We know that security and reliability are prevailing priorities when you need our products, and that's why the variety of GunVault gun safes offer the select features you want:

- High-strength lock mechanism.
- Precise fittings virtually impossible to pry open with hand tools.
- Over 12 million user-selectable access codes available.
- Audio feedback instantly confirms correct keypad entries.
- Audio disable feature allows "stealth" mode operation.
- Battery power for maximum security.
- Tamper indicator notes invalid entry attempts.
- Built-in computer blocks access after repeated invalid keypad entries.
- Spring activated door.

BIO

GUNVAULT BIOMETRIC TECHNOLOGY

GunVault Bio safes use biometrics, specifically fingerprint recognition, to access the safe contents. A high-performance algorithm is used to achieve speedy identification of enrolled fingerprints; and at the same time has a very low False Reject Rate (FRR) for a given False Accept Rate (FAR). This self-learning algorithm of the GunVault Bio adds new minutiae to the fingerprint templates each time a user touches the fingerprint sensor, which decreases the likelihood of FRR, updates slight changes that might occur over time to an enrolled fingerprint, as well as to help distinguish variations between the enrolled fingerprints. System can handle a maximum of fifteen fingerprint templates.

"We are thrilled to receive this award from Shooting Industry," said Mike Baker, Director of Marketing. "It's a tremendous honor to be chosen as this year's best when it comes to security products from such an esteemed group of industry leaders."

GUNVAULT RECEIVES ESTEEMED AWARD!

GunVault is proud to announce that its MicroVault Bio was recently honored as "Safety Product of the Year" by the Shooting Industry Academy of Excellence. The MicroVault Bio's unique, notebook-style design allows one to securely transport a handgun or valuables (page 5). The 500-member academy, comprised of manufacturers, distributors and dealers considered 114 product entries and 41 service award entries this year.

NANOVAULT *GUNVAULT*

GUNVAULT SECURITY ANYWHERE, ANYTIME

Get an extra measure of safety and security with these affordable handgun storage safes. Available in two sizes with two lock options, they are perfect for home, travel or concealed-weapon permit holders. Cases meet TSA airline firearm guidelines and fit discreetly in a bag, briefcase, desk or under a vehicle seat. Each includes a 1,500-lb. test security cable.

NV100

NV200

NV300

NANOVAULT FEATURES

- Interior top and bottom lined with 1/2" thick memory-fitting foam
- 20-gauge steel construction
- Easy-to-operate **Key Lock System** (NanoVault 100 & NanoVault 200).

- Three-number **Combination Lock** (NanoVault 300).

Specifications on page 11.

GUNVAULT SECURITY CABLE

The NanoVault is supplied with a 1,500 lb. test security cable. When the cable is wrapped around any fixed object and slipped over the lock receiver inside the security box, both the NanoVault and any valuables inside will be securely attached. (Security cable included on all NanoVault models)

UL RATED FIRE MATERIALS

MAGVAULT GUNVAULT

INTELLIGENT SECURITY BY POPULAR DEMAND

Extensive customer demand was the inspiration for the new GunVault MagVault, a revolutionary new way to keep your AR rifle safe and secure at home, during travel or on the range. This unique design fits in the magazine well and locks in place quickly. Versatile, easy to use and priced to fit any budget, the MagVault is a must for AR owners.

MAGVAULT FEATURES

- Easy-to-operate key lock system.
- Fits virtually all .223/5.56 AR carbine rifles.
- High-visibility orange color for immediate safety recognition.

BREECHVAULT GUNVAULT

SMART, EFFECTIVE & AFFORDABLE FIREARM SECURITY

Help prevent accidents and mishandling of firearms with this versatile lock for pump shotguns. Quick, easy installation and key-lock operation make it simple to use, and the affordable price ensures high security without breaking the bank. Made from extremely durable glass-reinforced nylon for maximum durability.

MagVault shown in breech.

Shown in magwell in locked position. Cartridges cannot be inserted or chambered when MagVault is in place.

Simple to install with secure key lock.

SHOTGUN BREECHVAULT FEATURES

- Easy-to-operate key lock system.
- Fits Winchester, Remington & Mossberg pump shotguns.
- CA DOJ approved.
- Fits 12 gauge shotguns only.
- Functional, low-profile design stows easily even in gun case.
- High-visibility orange color for immediate safety recognition.

GUNVAULT SECURITY CABLE

GUNVAULT SECURITY CABLE FEATURES

- Six-foot-long cable is made of high-strength steel.
- Works with GunVault Mini, Multi, Mini Deluxe, Multi Deluxe and Bio 1000 and Bio 2000 safes.
- Perfect for homes, RVs, Automobiles, Offices or Hotels.

YES, YOU CAN TAKE IT WITH YOU

The GunVault Security Cable lets you secure your safe in virtually any location. Simply loop the cable around any secure item (Bed Frame, Desk Leg, Pipe, Etc.) and secure the cable in the slot at the side of the safe.
